

WORKHORSE

GOODYEAR® OFF-THE-ROAD SCRAPER TIRES FOR CONSTRUCTION, MINING AND EARTHMOVING APPLICATIONS

STURDY, STABLE AND LONG-LASTING TO KEEP YOUR SITE WORKING

Goodyear scraper tires feature specifically engineered compounds and tread designs to ensure they keep their cool at high speeds and keep their footing over severe terrains and underfoot conditions.

GOODYEAR
OFF-THE-ROAD TIRES

STURDY, STABLE AND LONG-LASTING TO KEEP YOUR SITE WORKING

GP-2B EXCELLENT VALUE, SMOOTH-RIDING RADIAL TIRE FOR MULTIPLE USES IN HIGH TMPH APPLICATIONS

- **OPEN SHOULDER GROOVES** are self-cleaning for outstanding traction
- **ENHANCED RADIAL CONSTRUCTION** helps deliver stability, improved mobility and treadwear, a softer ride and better fuel economy
- **UNIQUE HIGH-SYNTHETIC COMPOUND** helps provide long treadwear and resistance to abrasions and cuts

Available Sizes:		
23.5R25	26.5R25	29.5R25

RT-3A (E-3) AGGRESSIVE TREAD PATTERN, RADIAL TIRE FOR MAXIMUM TRACTION IN ALL UNDERFOOT CONDITIONS

- **UNIQUE GEOMETRIC LUG PATTERN** provides optimum treadwear, even pressure distribution and increased mobility
- **BUTTRESSED SHOULDER LUGS** provide self-cleaning and resist sidewall cutting
- **RADIAL CONSTRUCTION** runs cooler and improves treadwear

Available Size:
33.25R29

RT-3B A STRONG TOUGH CHOICE FOR USE ON TOUGH TERRAIN

- **MULTIPLE STEEL BELTS** help save you downtime and money by resisting rock cuts
- **WIDE TREAD WIDTH** improves mobility and gives a more stable, comfortable ride
- **ALL-STEEL RADIAL CONSTRUCTION** helps resist heat buildup

Available Sizes:		
23.5R25	26.5R25	29.5R25

RT-3A+ (E-3+) EXTRA-DEEP, AGGRESSIVE TREAD PATTERN FOR MAXIMUM TRACTION IN ALL UNDERFOOT CONDITIONS

- **UNIQUE GEOMETRIC LUG PATTERN** provides optimum treadwear, even pressure distribution and increased mobility
- **BUTTRESSED SHOULDER LUGS** provide self-cleaning and resist sidewall cutting
- **RADIAL CONSTRUCTION** runs cooler and improves treadwear

Available Size:
40.5/75R39

TL-3A+ 125-LEVEL, RADIAL TIRE DESIGN WITH 25% MORE TREAD DEPTH FOR SUPERIOR TRACTION AND RIDE IN SOFT SOIL AND LOOSE UNDERFOOT CONDITIONS

- **ULTRA-WIDE TREAD ARC WIDTH** enhances forward and lateral traction as well as flotation
- **OPEN TREAD DESIGN** helps promote self-cleaning
- **HIGH-TENSILE STEEL BELT PACKAGE** enhances impact resistance

Available Sizes:		
23.5R25	26.5R25	29.5R25

RL-3J (E-3) SMOOTH-RIDING, MULTI-PURPOSE, RADIAL TIRE FOR HIGH SPEED APPLICATION IN MODERATE TO SEVERE UNDERFOOT CONDITIONS

- **CENTERLINE ZIGZAG GROOVE**, improves lateral traction, even through high-torque applications
- **TAPERED SHOULDER LUGS**, help provide excellent forward traction and self-cleaning
- **HIGH-TENSILE STEEL BELT PACKAGE** enhances impact resistance

Available Size:
37.25R35

GP-4D EXTRA 150-LEVEL TREAD DEPTH/100-LEVEL OD, ENHANCED TRACTION RADIAL DESIGN

- **CENTERLINE RIDING LUGS** improve lateral traction, tread life and ride comfort
- **AVAILABLE IN 65-SERIES AND SELECTED WIDE BASES** for better flotation, greater stability and reduced ground pressure
- **100-LEVEL OD** eliminates tandem axle interference

Available Size:
875/65R29
